INNOVATION FROM ICELAND

Benecta is one of the most popular, innovative natural food supplements in Iceland now available in the UK.

Derived from short chain chitosan, anecdotal evidence suggests that taking just 2 capsules a day can help alleviate many symptoms often associated with getting older such as stiffness, aches and lethargy.

THE BENECTA EFFECT

Nick Bayly needs to be taken back to the 1980s. One day, while playing a round of golf, he was struck by a golf ball. The ball hit him in the chest, and he was taken to hospital. The doctors told him that he had a heart condition and that he should stop playing golf. Nick Bayly, a professional golfer, was told to stop playing golf. He was told to stop playing golf. Enjoy midnight golf in Iceland

Old man **David J. Whyte's** time in 'The Land of the Midnight Sun' was simply unforgettable.

The first time I stepped out of the plane in Iceland, I was struck by the beauty of the landscape. The snow-capped mountains and the clear blue sky were simply breathtaking. I had heard that Iceland was a beautiful country, but I didn't realize how beautiful it really was. I was told that Iceland was a beautiful country, but I didn't realize how beautiful it really was. DEFY YOUR AGE

Jeremy Ellwood's recent epic road trip was the perfect opportunity to find out if the Benecta health supplement really could live up to its 'Defy Your Age' strapline.

In our October issue you asked us to find out if Benecta really could live up to its 'Defy Your Age' strapline. We asked Jeremy Ellwood, a professional golfer, to take a road trip across Iceland to find out if Benecta really could live up to its 'Defy Your Age' strapline.
